Official University Policy

TAKING CLASSES WHILE ON CO-OP; Effective Fall 2007

In an effort to better couple academics with a student’s cooperative education experience, undergraduate students enrolled in a co-op education program may register for one course (up to four (4) credits) during each term for which they are on a co-op assignment without additional charge.

1. A maximum of one (1) undergraduate course (up to four (4) credits) may be taken without additional charge; if this course carries more than (4) credits, the additional credits are billed on a per-credit basis.
2. If a student registers for a second course, the second course is billed on a per-credit basis.
3. According to existing policy, students on co-op are permitted to register for a maximum of six (6) credits per co-op term.
4. Students are not eligible to register for online courses without charge. A student who registers for an online course will be charged at a per credit rate.
5. Registration is subject to the approval of both the student's Academic Advisor and Co-op Advisor. The Co-op Advisor will ensure that the requested course does not interfere with the student's co-op assignment. In some cases, the co-op employer may be contacted.
6. Registration is subject to course availability within established enrollment limits. **No course overrides will be granted.**
7. Registration for these courses opens one week prior to the beginning of the respective term.
8. The Enrichment Course Policy remains in place. Credits earned in an Enrichment Course count towards the six (6) credit per co-op term maximum.
